

Rahul Kulkarni Rignamoon

Mount Carmel & St. College of Science, SMC (2024)

I was a student of "Advanced Academy" and I am very glad to study in this Academy. The teachers of this Academy are well experienced and provide us good guidance. The coaching classes also provided a competitive environment which helps me to do better myself. One of the most significant benefits of the coaching classes was the personal attention that I received from the teachers. They cleared our all the doubts & the main thing is that we didn't even hesitate to ask the doubts to teachers because they are very friendly to the students.

Overall my experience of coaching classes has been a positive one. Thus, I would recommend it to every student who is serious about their studies.
